

Announcement

**A new final session of the
2021 South America
Regional Transport
Security Series
(SARTSS)**

**June 2, 2021
9:00 – 11:30 (Bogota time)**

Promoting Gender Parity in Nuclear Security

Women have traditionally been underrepresented in the field of nuclear security, and perhaps even more so within areas such as transport security and response. This session aims to increase awareness of this concern and provide good practice examples and resources for improving gender parity in nuclear security

English/Spanish remote simultaneous interpretation provided
